

REDINGTON DIGITAL WORKPLACE SERVICES

Embrace the hybrid workforce with an
intelligent digital workspace

HYBRID WORK IS HERE TO STAY

Automation enabled workplace support services, which were differentiator for service providers a few years ago, have become a fundamental requirement today. As enterprises move towards a user and business-centric view, workplace services also increasingly involve cloud, mobility, and collaboration enablement with a clear view of business impact.

At Redington we are witnessing more demand for end-to-end workplace services rather than piecemeal projects. Our 'User-First' approach provides IT service availability view from end-users' lens, along with enterprise-wide visibility of user experience and productivity.

M365 SERVICES

Security

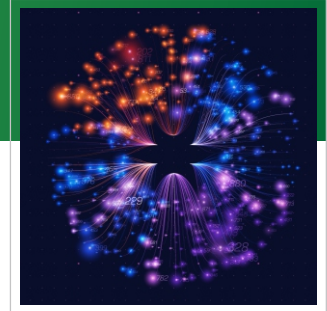

Microsoft 365 provides a suite of productivity apps. Microsoft 365 E5 is an enterprise-level version of this suite. In addition to productivity apps, E5 offers Microsoft security technologies and advanced capabilities for compliance and analytics.

Microsoft 365 provides a suite of productivity apps. Microsoft 365 E5 is an enterprise-level version of this suite. In addition to productivity apps, E5 offers Microsoft security technologies and advanced capabilities for compliance and analytics. Here are key features of Microsoft 365 E5

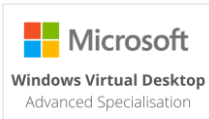

Compliance

Microsoft 365 E5 centralizes information protection and compliance capabilities to help govern and protect data. It can help minimize risks and adhere to regulatory and organizational compliance requirements.

Analytics

Microsoft 365 E5 offers Power BI capabilities that can help analyze your data and derive insights. You can use Power BI to realize new business value.

GOOGLE WORKSPACE

Google Workspace is the ultimate cloud-based platform that boosts productivity, fuels collaboration, and simplifies work processes. With its integrated suite of smart apps, it empowers individuals, teams, and organizations to streamline their workflow, communicate effortlessly, and securely share documents. Whether you're a small business, a large enterprise, or an educational institution, Google Workspace is the all-in-one solution to supercharge your productivity and drive success.

Secure Data & Devices

Protect your company's data with security options like 2-Step Verification and Single Sign-On, and use endpoint management to keep your data safe in the case of a lost device or employee turnover. Archive email messages and on-the-record chats, and control how long they are retained for.

Cloud storage and file sharing

Keep all your work in one place with secure access from your computer, phone or tablet. Quickly invite others to view, download and collaborate on any file - no email attachment needed. File updates are automatically saved and stored in Drive, so everyone can always have access to the latest version.

Real time collaboration

Easily work on documents, spreadsheets and slides across your devices, with or without Internet. Work on a single document with team members or people outside your company. See edits as others type, communicate through built-in chat and ask questions in comments. Several people can work at the same time, and every change is saved automatically.

TESTIMONIALS

Our journey to Microsoft 365 has helped us to be more efficient and productive. We can have much better security on data and employee devices due to its various MDM services. Collaboration has been much better and teams can effectively share ideas in a very collective matter.

All in all a big thumbs up for Microsoft 365.

Partnership with Redington & Google has been an asset in our growth journey. The continuous and prompt support received from Team Redington has ensured careful and smooth migration of all our tasks and loads on Google Workspace .

We applaud our partners at Redington to help us at each step of the way-

Evaluation. Implementation. Migration.

I would like to express my heartfelt appreciation to the Redington and Lotus Solutions team for their outstanding support during our transition to Microsoft 365. Since implementing the platform, our organization has experienced a significant boost in efficiency and productivity. The training sessions provided were invaluable in helping us understand and utilize the platform's numerous features. The expertise and guidance of the Redington and Lotus Solutions team ensured a smooth transition, and their dedication to customer satisfaction set a new standard of excellence. We are grateful for their exceptional service and support.
